## ENLIST VOLUNTEERS.

Order Issued by President's Direction Today.

TO BE TEN NEW REGIMENTS.

Each State to Have a Captain and First Lieutenant—Major Rice, an Officer of the Regular Army, Appointed Colonel of the Twenty-Sixth Regiment.

WASHINGTON, July 6.—The order directing the enlistment of ten new regiments of volunteer infantry was issued today. The order was drafted after a conference yesterday afternoon between the president and Adjutant General Corbin, and directs the recruiting officers to enlist men under the law passed March 2, 1899. These regiments are to be numbered from 30 to 35, thus retaining the continuity of the present infantry organization.

Senator McLaurin of South Carolina was at the White House in the interest of some applicants for commissions in the new military organization. He was given to understand that the president would appoint the officers for the new regiments among the several states in the proportion of a captain and a first lieutenant for each state, irrespective of politics.

The higher officers, as has already been intimated, are to be taken largely from the regular establishment. It is understood that a strong effort will be made to reserve the second lieutenants for the non-commissioned officers, who have made good records in active service both with the regulars and the volunteers.

Major Edmund Rice, Third infantry, yesterday was appointed colonel of the Twenty-fifth, the first selection made by the president.

Colonel Rice was appointed to the army from Massachusetts as a captain of the Nineteenth Massachusetts volunteers in 1891 and served throughout the rebellion. He was breveted captain, major and lieutenant colonel for gallant services during the rebellion, and at its close became a first lieutenant in the regular army. Colonel Rice became well known to all the visitors at the World's fair in Chicago, where he organized and commanded the Columbian guard.

At the outbreak of the war with Spain he was serving as military attaché in Japan, but hastened home and accompanied General Miles' command to Porto Rico. While there he was appointed by the governor of Massachusetts as colonel of the Sixth Massachusetts infantry, which he continued to command until its muster out.

## Engineer Company For Manila.

NEW YORK, July 6.—Company E of the engineer corps left Willits Point for Manila, via San Francisco. The company is one of the best in the service and has in it many men who have served 20 and 30 years. One man who goes as a private was formerly a lieutenant in the volunteer army. Another member of this company is Sergeant Edward Carroll, the mine expert, who has been detailed to teach the method of laying and taking up mines in warfare.

## Will Bring Sick Soldiers.

WASHINGTON, July 6.—Major Bradley, surgeon in charge of the hospital ship Relief, telegraphed Surgeon General Sternberg that the ship grounded on entering Yokohama, but was soon floated, suffering no injury. The Relief will sail on July 7, will be at Honolulu July 19 and arrive at San Francisco July 28. She is bringing 250 sick soldiers from Manila.

## Socialists Were Ready to Fight.

BRUSSELS, July 6.—The Belgian kingdom has escaped a very strong shakedown. The socialists, who are admirably disciplined, had purchased arms and collected stores of every kind to fight the police, the constabulary and all representatives of authority and organize a real insurrection. If M. Van Den Broeck's bill had not been withdrawn. The danger has subsided for the present.

## MUST BE MADE IN WHEELING.

A Judge Decided Stogies Made In Other Cities Contain He Labels "Wheeling."

BOSTON, July 6.—In the United States circuit court Judge Colt handed down a decision holding that stogies bearing the name of "Wheeling" or "Wheeling stogies," could not be manufactured in Boston or elsewhere when Wheeling and sold as "Wheeling stogies." The decision is the result of a suit brought by a West Virginia manufacturer of stogies against Joseph Engd of this city. A writ of injunction was issued restraining the defendants from manufacturing or selling "Wheeling stogies" not actually made in the city of Wheeling.

It is claimed that this decision will be far-reaching in effect in the tobacco trade and may also have effect in other lines of business.

SCRANTON, Pa., July 6.—Details from the murder at Simpson fail to disclose any immediate cause for Hennessey's killing of his bride of two short months and the supposition follows that it was an insane act. They had frequent quarrels since the first week of their marriage, but were not by any means on terms of enmity.

A Woman Drowned.  
WILKESBARRE, Pa., July 6.—Mrs. Joseph Kulich was drowned in the Susquehanna river at Plymouth and two other women had narrow escapes.
